NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Saturday is a big election day for Jones County voters. They will decide who the Democratic nominees will be for County Judge and State Representative. Since these two offices are about as important as any that you are called upon to vote on, it is extremely important that you go to the polls Saturday.

This is grassroots democracy at its best. But our whole system stands or falls on whether or not the average voter turns out on election day.

Both of these races have gotten more local people involved in politics than any campaigns that we can ever remember. And this is good. For too long now most people have just sat back and let other people make all the decisions for them.

The thing that really makes our system work is for people to actively get involved in campaigns for the various elected offices. Up to now we have been lucky to get people out to vote, much less get involved in the campaigns and issues.

Hopefully with more people taking an active part, we will see a greater turnout at the polls Saturday. If you have a favorite candidate in either or both races Saturday then it is important that you not only go vote but encourage others to exercise the same privilege.

It would be shame if your candidate got beat Saturday just because you failed to take the time to cast your ballot.

While this newspaper has endorsed Mike Young for State Representative and Leon Thurman for County Judge, the important thing is for you to make up your own mind about the candidates and then vote.

If you still have not decided who you want to support in each of the two races, then take the time to talk to some of your friends and read the campaign literature.

All four candidates for these two offices have put in many long hours in this campaign and are deserving of a heavy voter turnout. They have done their part; now it is up to you to do your thing—vote.

Bill Cork will be running this weekend at Houston in the first of three invitational meets. We join all of Hamlin, and track fans from all over this area for that matter, in wishing him the best of luck as he seeks to win fame and recognition for both himself and for Hamlin.

We have not had a chance to check with those who are collecting money to meet the expenses for these trips but hope that they have been successful. It would be a black mark against this community if Bill had to miss one or more of the meets for the lack of transportation funds.

My father, Roy Craig, writing in his column in the Stamford American, has come up with a suggestion that seems to have merit.

"I have been waiting to see if Jones County Commissioners erect a low steel fence on the north side of the court house to prevent motorists from crashing headlong into that new bust of Cong. Omar Bureson. To date no barrier has been erected.

"Every year or so, some driver will come barreling down the highway from the north and fail to dodge around the courthouse. Trees have been damaged and the air conditioner tower destroyed on two separate occasions.

"Some oil field pipe would make a suitable barrier and if it were kept painted it would not be unattractive.

"Without this, someone sometime is going to make a radiator ornament out of the congressman."

Waggoner Drug Starts 69th Year Here June 1

Waggoner Drug, founded in 1906, will begin their 69th year of service to Hamlin June 1, according to Jerry Waggoner, third generation owner-operator.

The establishment was founded in 1906 by Jerry's grandfather, Jerry J. Waggoner who operated the business until his death in 1944.

His son Frank G., who was six years of age when the family moved here, was associated with the drug

store all of his life. He became a licensed pharmacist Jan. 18, 1921. He operated the firm until his death in October, 1970. His son, Jerry F., began working in the store while in high school.

The Waggoners have served as many as five generations of some families. Some customers, Jerry noted, have continuously carried an account since the ledger of 1910.

The business was opened in the third business building in the townsite of Hamlin in 1906. Later, in 1909, the firm moved to the present location after completion of a new structure.

When the store was founded the closest post office was at Neinda. Residents of the area also voted in Neinda.

Mr. and Mrs. Jerry Waggoner have operated the store since his father's death in October, 1970. His mother was active in the operation of the firm until a serious fall forced her retirement. She resides at Holiday Lodge.

Salad Luncheon Honors Miss Seymore Friday

Miss Maggie Seymore, who is retiring after 32 years of teaching, was honored at a salad luncheon Friday by teachers and personnel of Hamlin Elementary School.

Miss Seymore was presented a gold pendant watch as a gift from her associates. Mrs. John V. Howard, school secretary, made the presentation.

Out of town friends here for the luncheon were Mrs. Addie Lewis of Denton and Mrs. Nell Kell of Weatherford.

Former teachers attending were Mmes. Fred Smith, Harold Williams, F. F. Shout, R. B. Hennington and Miss Viola Avants.

Miss Seymore, a fourth grade teacher, has taught in Hamlin for 30 years. She and her sister, Annie, have lived on a farm most of their lives. They tried to farm a few years, she said when interviewed.

One mother who was not pleased with her daughter's report card made this remark, "Your work on the farm is first." To this Miss Seymore replied, "No, I work as hard in the schoolroom as I do on the farm."

"I have experienced some 'grubbing or root-plowing' in the schoolroom; but the

rewards or 'harvests' have been thirty, sixty, and a hundred fold," she added.

She was born Nov. 12, 1911, in Melvin, daughter of the late Mr. and Mrs. W. H. Seymore.

The family moved here from Brady Jan. 1, 1924. From 1929 to 1932, she lived in Abilene and was graduated from Abilene High School in 1930.

Miss Seymore said that the work in a third or fourth class post office at Tiffin, six miles north of Ranger, gave her the confidence to go to college after nine years out of high school. She received her B. S. degree from McMurry in 1942 and her master's degree in 1952.

She is a charter and lifetime member of National Cowboy Hall of Fame. Her very special interest is western heritage in history, art and music.

A lifetime member of Texas Congress Parents and Teachers, she was listed in the 1972 edition of Outstanding Elementary Teachers of America.

She is an active member of the Church of the Nazarene. Her hobbies include working in the yard with flowers and crochet.

FIFTY YEARS AGO
(May 23, 1924)

Hamlin people had another opportunity to hear a candidate for governor, on Tuesday afternoon of this week. The speaker was the Hon. W. E. Pope, of Corpus Christi. There were but a few to hear this speech, owing to the fact that it is a very busy time and people are at work. Mr. Pope began in a very conversational tone and kept that gate for nearly two hours. He proved a very convincing talker and dealt with facts and figures that needed no special energy to strike home the logic. He made it clear that if he was chosen governor of Texas that the program that has been followed the past few years in Texas would be reconstructed and more business put into the affairs of state at Austin. He made it clear that his platform was on the subject of less taxation and more business in the expenditure of the people's money.

It is gratifying that Hamlin people will observe Memorial Day in an appropriate program. This program will be held at the City Recreation Park at three o'clock, Friday, May 30th, and at least forty minutes will be consumed in the exercises.

This program will be enjoyed by those who may go. It will give another chance to see the beautiful park and increase your appreciation of same.

TWENTY YEARS AGO
(May 28, 1954)

No applicants for the job as city dog catcher and operator of a city pound have been received, according to Mayor Willard Jones. City officials had advertised the opening several days ago. Probable salary would be \$100 per month, it was estimated, depending, of course, on the number of dogs caught.

City officials said that a fee would be charged for release of a dog picked up on the streets of the city and placed in the dog pound, most of which fee would go to the dog catcher.

New \$65,000 water filtration plant for the City of Hamlin was staked off first of the week by engineers of the Freese & Nichols firm of Fort Worth.

Representatives of Norcross Construction Company, contractors for the project, were on the ground, and actual basic work was scheduled to be underway by yesterday (Thursday).

The plant, which will double the capacity of the present facilities, will be located south and west of the present filtration plant.

Annual drive against the fly and mosquito menace in the City of Hamlin was begun in earnest Monday as the city's fogging machine went into operation. Preliminary runs were made last Friday, city officials announced.

TEN YEARS AGO
(May 28, 1964)

David Drummond, Hamlin's gritty little miler ran the fastest time of his career in Austin on May 9, but it was only good enough for second place behind the defending state champion Walter Reyna of San Diego, Texas. Reyna hit the tape with the fastest time in all classes with a clocking of 4:22.4. Drummond, a crowd favorite, stayed in fifth place with 140 yards left to go, but then made his move and sprinted away from the field gaining distance fast on Reyna. But the yards ran out and Drummond had to settle for second with a fine time and another school record of 4:28.9.

Two charter buses will take youth of First Baptist Church to a Six Flags Youth Rally on Tuesday, June 2.

Thousands of teenagers and sponsors over the state will be attending the all-day fun and evening rally at Six Flags. Over 60 from the local First Church will be going on the buses. Several adult sponsors and parents will accompany the group as well as the Lenard Hartleys and the S. L. Tates.

“For Me to Live is Christ”

“And the Lord shall guide thee continually, and satisfy thy soul in draught, and make fat thy bones: and thou shalt be like a watered garden, and like a spring of water, whose waters fail not.”
Isaiah 58:11.

“For me to live is Christ” is to be living for a purpose—to serve God by drawing out my soul to the poor, lonely, hungry, and lost. “For me to live is Christ” is to lead men everywhere to Jesus Christ who is the fountain of the water of life. And He has promised that when I am in His service He will guide me, and satisfy me, and I shall be like the flowers in this picture, like a watered garden, sustained by Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Claims There Is Such A Thing As Progress, Cites Proof

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses progress this week, but we can't tell whether he's for it or against it.

Dear editor: It doesn't concern me but I was interested in a brief news item I read the other day reporting that printers on the New York Daily News, the country's largest newspaper, were on strike against automation.

As I understand it, some bird who wasn't satisfied to leave well enough alone has invented a printing process that almost eliminates printers, especially Linotype operators. It uses some sort of photo process which I'm not about to try to comprehend. I haven't figured out yet what makes a telephone work, when it does.

Anyway, seeing a threat to their jobs, the Linotype operators struck, forgetting I guess that when the Linotype was first invented the hand-set printers struck for the same reason, just as I suppose the scroll-writers did when hand-set type was invented, or the wandering minstrels did when the scroll-writers appeared.

If they'd left the minstrels in charge we wouldn't have had all this trouble.

Some people contend that progress is like the frog trying to get out of a well by falling back five feet every time he jumps four, but they've got the analogy wrong. Actually progress consists of a frog's proudly gaining a foot every time he jumps but just as he nears the top somebody adds two more feet to the well curbing.

And even if by some Herculean effort he someday actually does clear the top and land in the open, most likely he'll find somebody waiting there hungry for frog legs.

However there is such a thing as progress. Have you ever stopped to think how few frogs are now confronted with the task of jumping out of wells because most people now get their water through pipes?

Oh, there are some backward countries still using open wells and I suppose from a theoretical standpoint you can say no frog is free till all frogs are free, still I believe I'd rather have an open well than to go thirsty, even if I have to get my frog legs at the supermarket.

I'm not sure this makes sense but I guess you could clear it up by furnishing your readers an edited transcript of it.

Yours faithfully,
J. A.

The above plat shows Jones County as being the only County in a 16 County area that has an Attorney as its COUNTY JUDGE.

The Citizens of 15 of these Counties have continued to elect a Layman as THEIR County Judge year after year.

These Counties have not had to raise TAXES because of their election of a LAYMAN as their County Judge, nor will it be necessary for JONES COUNTY to raise TAXES simply because they elect a Layman instead of an Attorney as THEIR County Judge, as has been ADVOCATED by the OPPOSITION in this campaign. The records in Austin show that ONLY 66 of the 254 Counties of Texas have an Attorney as County Judge. These FACTS can be verified and I welcome your investigation.

STATE REP. ELMER MARTIN HAS DONE THE JOB FOR US

Vote Saturday to Re-Elect This Effective Legislator to Keep Up the Good Work

ELMER MARTIN

IS THE ONLY SMALL TOWN, RURAL CANDIDATE

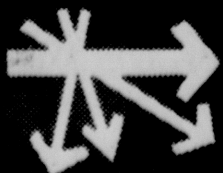

Elmer Martin is One of Us—a small townner. He lives in Colorado City, earns his living from a small farm he owns and another he rents. Small towns and rural communities make up 75 percent of our 5-county Legislative District 61 (Nolan, Fisher, Mitchell, Jones and Taylor). The other 25 percent are from Abilene. Martin's opponent lives in Abilene, which already has a State Senator and one State Representative. Our small towns and agriculture communities need more voice in Austin, not less. We need more of Elmer Martin.

88 PER CENT OF HIS HOME COUNTY VOTERS ARE FOR ELMER MARTIN

That is right, Elmer Martin received an unprecedented endorsement from his home county of Mitchell in the May 4, Democratic Primary. A total of 1,929 Mitchell County voters cast ballots. An overwhelming 88 percent — 1,702 of those votes — were for Elmer Martin's re-election to State Representative, District 61. This is extraordinary testimony from those who know him best that Elmer Martin measures up to the high mark for honesty, integrity and effective service.

A PERSONAL WORD TO YOU FROM ELMER MARTIN

I regret that my duties as your delegate to the Texas Constitutional Convention has prevented me from campaigning among you personally during the Democratic Primary Run-off. I believe I owe it to you to remain on the job here in Austin for you, no matter how costly it is to my campaign for re-election. And, I believe you understand. Please vote Saturday. — Elmer Martin Your State Representative.

Rules On Life Jackets Explained By TPWD

AUSTIN—There still seems to be some confusion regarding Personal Flotation Devices for recreational boats, according to Texas Parks and Wildlife Department water safety education officials.

Although the new law regarding PFDs went into effect October 1, 1973, many boat owners are still not sure what devices are needed on their boats.

All boats 16 feet or longer

are required to have a Type I, II or III PFD for each person on board plus at least one Type IV throwable device. Boats under 16 feet in length are required to have one Type I, II, III or IV for each person on board. Any boat, regardless of size, must have a PFD aboard for all water skiers, even if they are being towed.

Also, all children 12 years of age or under must wear a life preserver at all times on boats less than 26 feet in length.

A Type I device, better known as a life preserver, contains more than 20 pounds of buoyancy and is designed to turn an unconscious wearer face-up in the water.

A Type II device, or buoyant vest, contains at least 15.5 pounds of buoyancy and will also turn an unconscious wearer face-up in the water.

A Type III, or special purpose device, contains at least 15.5 pounds of buoyancy, and is designed to keep a conscious person face up in the water, but may not turn an unconscious person face up.

Type IV is a throwable device, such as a buoyant cushion or ring buoy.

Wallet-sized cards explaining the regulations are available from: Texas Parks and Wildlife Department, Water Safety Education,

elementary education.

Her activities include 4-H, FFA, Annual Staff, treasurer and Senior Class reporter. She played basketball and volleyball. She was named Miss McCauley High School, Harvest Princess, Class Favorite, and Most Outstanding FFA'er. She was in the Senior Play and she likes to sew and ride bicycles.

County Agent's Office

VEGETABLES

Numerous calls have come to the County agent's office this week regarding the use of vegetables which have been caught in the drift of 2-4-5-T or 2-4-5-T and Dicamba mixtures. These sprays solutions, says Kirby Clayton have been used by planes for mesquite control and in some cases the drift has contaminated home vegetable gardens.

Clayton says that no tolerance for human consumption of vegetables caught in the drift of 2-4-5-T or Dicamba, has been established by the Texas Extension Service and the only advice he can give to vegetable garden owners is not eat the vegetables. However, Clayton says that manufacture of the products may have a safe tolerance established and he urges concerned producers to either contact the company or call the EPA Regional office in Dallas at phone 214-749-7126.

SHADE TREES

Inadequate moisture is a problem for most shade trees owners in Jones County says Jones County Extension

agent Kirby Clayton. Most shade trees went through the winter months without any natural rainfall; many tree owners did not water adequately to maintain proper vigor and growth. As a consequence, trees did not leaf out properly, especially the pecan trees. Since the leaves are the manufacturing plant for the tree, it is very necessary that trees develop proper leaf foliage to produce fruit and maintain the vigor of the tree.

Watering, says Clayton, should be deep and trees in this area will need a good watering at least every two weeks to maintain vigor and growth.

Most all yard trees need to be fertilized once a year and pecan trees especially need 2-3 applications of zinc to prevent dieback and stimulate terminal growth. Zinc sulphate at the rate of two pounds per 100 gallons water may be added to the regular pecan spray solution for the pecan nut casebearer control.

In summarizing, Clayton suggest that proper fertilization, proper watering and a spray program to combat insects and diseases

a must if tree owners are to maintain healthy vigorous trees.

COYOTES

Jones County has been included in the counties which may use poison to control coyotes, says Jones County Agent Kirby Clayton. The agent says that farmers and ranchers in Jones County may now use potassium cyanide for coyote control on their farms provided they have gone through the one day training program.

Farmers and ranchers who are interested in taking this training to qualify for putting out potassium cyanide for coyote control should call the County Agent's office at 823-3801 in Anson and have their name and address. Those interested will be contacted later for the training meeting.

BLACKLEG

All cattle under two years of age should be vaccinated for blackleg every year, advises Kirby Clayton, county agent for the Texas Agricultural Extension Service.

Blackleg is a disease which is usually fatal to young cattle. The death or lameness of the best young calf in a herd often signals an outbreak of the disease. The most common sign that an animal has the disease is a swelling of the heavy muscles in the hip and shoulder.

According to Clayton, blackleg has been around for a long time and seems to show up wherever cattle are raised. It is caused by bacteria which are usually ingested with feed. The infection ends up in the heavy muscles of the animal, where it causes great damage and forms large quantities of gas in the tissues. When pressure is applied to the affected area, the gas in the tissues makes a crackling sound, like paper being crumpled.

An animal which has died from blackleg has a characteristic posture. Because of the terrific swelling soon after death, the animal has its legs extended and stiff like a sawhorse.

Once animals are stricken with the disease, they usually die in 12 to 48 hours. The disease can be prevented by vaccination with a bacterin made from the organism which causes the disease. Since animals under two years of age are the ones usually affected, they are the ones which should be vaccinated.

Although annual vaccination means that some animals be vaccinated more than once, this will not hurt the animals and will keep resistance at a high level, explains Clayton.

If there is an outbreak of blackleg on your farm, the best thing to do is to vaccinate all the young animals and hope you are getting ahead of the infection. You

may continue to lose animals for about two weeks. After that much time has passed since vaccination, the animals are generally safe. However, an annual vaccination program for all cattle under two years of age will eliminate chances of an outbreak, contends Clayton.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Saturday is a big election day for Jones County voters. They will decide who the Democratic nominees will be for County Judge and State Representative. Since these two offices are about as important as any that you are called upon to vote on, it is extremely important that you go to the polls Saturday.

This is grassroots democracy at its best. But our whole system stands or falls on whether or not the average voter turns out on election day.

Both of these races have gotten more local people involved in politics than any campaigns that we can ever remember. And this is good. For too long now most people have just sat back and let other people make all the decisions for them.

The thing that really makes our system work is for people to actively get involved in campaigns for the various elected offices. Up to now we have been lucky to get people out to vote, much less get involved in the campaigns and issues.

Hopefully with more people taking an active part, we will see a greater turnout at the polls Saturday. If you have a favorite candidate in either or both races Saturday then it is important that you not only go vote but encourage others to exercise the same privilege.

It would be shame if your candidate got beat Saturday just because you failed to take the time to cast your ballot.

While this newspaper has endorsed Mike Young for State Representative and Leon Thurman for County Judge, the important thing is for you to make up your own mind about the candidates and then vote.

If you still have not decided who you want to support in each of the two races, then take the time to talk to some of your friends and read the campaign literature.

All four candidates for these two offices have put in many long hours in this campaign and are deserving of a heavy voter turnout. They have done their part; now it is up to you to do your thing—vote.

Bill Cork will be running this weekend at Houston in the first of three invitational meets. We join all of Hamlin, and track fans from all over this area for that matter, in wishing him the best of luck as he seeks to win fame and recognition for both himself and for Hamlin.

We have not had a chance to check with those who are collecting money to meet the expenses for these trips but hope that they have been successful. It would be a black mark against this community if Bill had to miss one or more of the meets for the lack of transportation funds.

My father, Roy Craig, writing in his column in the Stamford American, has come up with a suggestion that seems to have merit.

"I have been waiting to see if Jones County Commissioners erect a low steel fence on the north side of the court house to prevent motorists from crashing headlong into that new bust of Cong. Omar Burleson. To date no barrier has been erected.

"Every year or so, some driver will come barreling down the highway from the north and fail to dodge around the courthouse. Trees have been damaged and the air conditioner tower destroyed on two separate occasions.

"Some oil field pipe would make a suitable barrier and if it were kept painted it would not be unattractive.

"Without this, someone sometime is going to make a radiator ornament out of the congressman."

Waggoner Drug Starts 69th Year Here June 1

Waggoner Drug, founded in 1906, will begin their 69th year of service to Hamlin June 1, according to Jerry Waggoner, third generation owner-operator.

The establishment was founded in 1906 by Jerry's grandfather, Jerry J. Waggoner who operated the business until his death in 1944.

His son Frank G., who was six years of age when the family moved here, was associated with the drug

store all of his life. He became a licensed pharmacist Jan. 18, 1921. He operated the firm until his death in October, 1970. His son, Jerry F., began working in the store while in high school.

The Waggoners have served as many as five generations of some families. Some customers, Jerry noted, have continuously carried an account since the ledger of 1910.

The business was opened in the third business building in the townsite of Hamlin in 1906. Later, in 1909, the firm moved to the present location after completion of a new structure.

When the store was founded the closest post office was at Neinda. Residents of the area also voted in Neinda.

Mr. and Mrs. Jerry Waggoner have operated the store since his father's death in October, 1970. His mother was active in the operation of the firm until a serious fall forced her retirement. She resides at Holiday Lodge.

CO. JUDGE, STATE REP.—

2 Races In Primary Election Saturday

Hamlin voters will go to the polls Saturday in the Second Democratic Primary to decide two races. They will be voting on the nominee for County Judge and State Representative.

County Democratic Chairman Moody Galbreath has announced that only eight of the 14 boxes in the county will be activated for the second primary. In Hamlin, the Precinct 14 voters will vote with the voters of Precinct 1 at the high school. Polls will open at 8 a.m. and close at 7 p.m.

The two hotly contested run-off elections are expected to bring a larger than usual turnout of voters for a Second Primary election.

Incumbent County Judge Leon Thurman is opposed by Roy Lane, Anson motel owner, for Jones County Judge. Judge Thurman led the three-man field in the first Primary with 1479 votes, with Lane receiving 1205 and Dave Reves drawing 383 votes.

Both men have waged an active campaign since the May 4 voting.

Elmer Martin is being opposed in his re-election bid for the District 61 House seat by Abilene Attorney Mike Young. Young received 30 percent and Alton Staggs, also of Abilene, received 21.1 percent.

Young led in both Jones and Taylor counties, while Martin led in Nolan, Fisher and in his

home county of Mitchell. Young led in Jones County with a vote of 1338 to Martin's 925, with Staggs drawing 759 votes.

Both Young and Thurman were heavy favorites with Hamlin voters in the first primary with Young receiving 322 votes to Martin's 107 in the two boxes here. Judge Thurman polled 377 votes in the two boxes here while Lane received 122 votes.

Family Planning Center Clinic Set for Stamford

A Stamford Outreach Clinic of the Family Planning Center of Abilene is scheduled to open June 11. The clinic will be located in the old library building on McHarg Street.

Services of the clinic include family planning counseling for men and women, methods of contraception, cancer detection by means of a pap smear and pelvic and breast examination, and venereal disease detection.

Educational classes will be held on subjects such as family planning, venereal diseases, child care, nutrition, hygiene, drug and alcohol abuse.

Salad Luncheon Honors Miss Seymore Friday

Miss Maggie Seymore, who is retiring after 32 years of teaching, was honored at a salad luncheon Friday by teachers and personnel of Hamlin Elementary School.

Miss Seymore was presented a gold pendant watch as a gift from her associates. Mrs. John V. Howard, school secretary, made the presentation.

Out of town friends here for the luncheon were Mrs. Addie Lewis of Denton and Mrs. Nell Kell of Weatherford.

Former teachers attending were Mmes. Fred Smith, Harold Williams, F. F. Shout, R. B. Hennington and Miss Viola Avants.

Miss Seymore, a fourth grade teacher, has taught in Hamlin for 30 years. She and her sister, Annie, have lived on a farm most of their lives. They tried to farm a few years, she said when interviewed.

One mother who was not pleased with her daughter's report card made this remark, "Your work on the farm is first." To this Miss Seymore replied, "No, I work as hard in the schoolroom as I do on the farm."

"I have experienced some 'grubbing or root-plowing' in the schoolroom; but the

rewards or 'harvests' have been thirty, sixty, and a hundred fold," she added.

She was born Nov. 12, 1911, in Melvin, daughter of the late Mr. and Mrs. W. H. Seymore.

The family moved here from Brady Jan. 1, 1924. From 1929 to 1932, she lived in Abilene and was graduated from Abilene High School in 1930.

Miss Seymore said that the work in a third or fourth class post office at Tiffin, six miles north of Ranger, gave her the confidence to go to college after nine years out of high school. She received her B. S. degree from McMurry in 1942 and her master's degree in 1952.

She is a charter and lifetime member of National Cowboy Hall of Fame. Her very special interest is western heritage in history, art and music.

A lifetime member of Texas Congress Parents and Teachers, she was listed in the 1972 edition of Outstanding Elementary Teachers of America.

She is an active member of the Church of the Nazarene. Her hobbies include working in the yard with flowers and crochet.

HONORED AT LUNCHEON—Miss Maggie Seymore, right, was honored Friday by fellow teachers and personnel of Hamlin Elementary School with the presentation of a gold pendant watch at a salad luncheon in primary cafeteria. THE TRUTH IS

ONLY 66 OF THE 254 COUNTIES OF THE STATE OF TEXAS, HAVE AN ATTORNEY AS THEIR COUNTY JUDGE. (Approx. 26 percent).

188 OF THESE COUNTIES HAVE LAYMEN INSTEAD OF ATTORNEYS AS THEIR COUNTY JUDGE. (Approx. 74 percent).

YOU HAVE BEEN TOLD BY THE OPPOSITION IN THIS CAMPAIGN THAT "most of the counties with the population the size of Jones County, with the work load, who do not have an Attorney in the office of County Judge have had to go to a County Court at Law, and the minimum cost of a County Court at Law would be around \$25,000.00 annually."

THE TRUTH IS

THERE ARE ONLY 62 COUNTY COURTS AT LAW IN THE STATE OF TEXAS. These are in addition to the 254 regular or constitutional County Courts and are located in the more CONGESTED counties of the state such as Bexar, Dallas, Harris, Jefferson, Lubbock, Taylor, Tarrant, etc., and were established to relieve the County Courts in CONGESTED Counties.

THE TRUTH IS

JONES COUNTY WILL NOT HAVE TO GO TO OR ESTABLISH A COUNTY COURT AT LAW, NOR WILL IT HAVE THE ADDED EXPENSE REFERRED TO BY THE OPPOSITION. Simply because they elect a LAYMAN instead of an attorney.

THE TRUTH IS

IN COUNTY COURTS THAT HAVE LAYMEN AS THEIR COUNTY JUDGES, THE DISTRICT COURTS OF THOSE COUNTIES HAVE JURISDICTION OF JUVENILE CASES, AND JONES COUNTY WILL BE NO EXCEPTION. YOUR JUVENILE CASES WILL BE FILED, PROCESSED, AND TRIED IN THE DISTRICT COURT OF JONES COUNTY, TEXAS, IN ANSON, TEXAS.

FROM THE FILES . . .

FIFTY YEARS AGO
(May 23, 1924)

Hamlin people had another opportunity to hear a candidate for governor, on Tuesday afternoon of this week. The speaker was the Hon. W. E. Pope, of Corpus Christi. There were but a few to hear this speech, owing to the fact that it is a very busy time and people are at work. Mr. Pope began in a very conversational tone and kept that gate for nearly two hours. He proved a very convincing talker and dealt with facts and figures that needed no special energy to strike home the logic. He made it clear that if he was chosen governor of Texas that the program that has been followed the past few years in Texas would be reconstructed and more business put into the affairs of state at Austin. He made it clear that his platform was on the subject of less taxation and more business in the expenditure of the people's money.

It is gratifying that Hamlin people will observe Memorial Day in an appropriate program. This program will be held at the City Recreation Park at three o'clock, Friday, May 30th, and at least forty minutes will be consumed in the exercises.

This program will be enjoyed by those who may go. It will give another chance to see the beautiful park and increase your appreciation of same.

TWENTY YEARS AGO
(May 28, 1954)

No applicants for the job as city dog catcher and operator of a city pound have been received, according to Mayor Willard Jones. City officials had advertised the opening several days ago. Probable salary would be \$100 per month, it was estimated, depending, of course, on the number of dogs caught.

City officials said that a fee would be charged for release of a dog picked up on the streets of the city and placed in the dog pound, most of which fee would go to the dog catcher.

New \$65,000 water filtration plant for the City of Hamlin was staked off first of the week by engineers of the Freese & Nichols firm of Fort Worth.

Representatives of Norcross Construction Company, contractors for the project, were on the ground, and actual basic work was scheduled to be underway by yesterday (Thursday).

The plant, which will double the capacity of the present facilities, will be located south and west of the present filtration plant.

Annual drive against the fly and mosquito menace in the City of Hamlin was begun in earnest Monday as the city's fogging machine went into operation. Preliminary runs were made last Friday, city officials announced.

TEN YEARS AGO
(May 28, 1964)

David Drummond, Hamlin's gritty little miler ran the fastest time of his career in Austin on May 9, but it was only good enough for second place behind the defending state champion Walter Reyna of San Diego, Texas. Reyna hit the tape with the fastest time in all classes with a clocking of 4:22.4. Drummond, a crowd favorite, stayed in fifth place with 140 yards left to go, but then made his move and sprinted away from the field gaining distance fast on Reyna. But the yards ran out and Drummond had to settle for second with a fine time and another school record of 4:28.9.

Two charter buses will take youth of First Baptist Church to a Six Flags Youth Rally on Tuesday, June 2.

Thousands of teenagers and sponsors over the state will be attending the all-day fun and evening rally at Six Flags. Over 60 from the local First Church will be going on the buses. Several adult sponsors and parents will accompany the group as well as the Lenard Hartleys and the S. L. Tates.

Mrs. Branscum
Hosts Phebean
Class Social

Mrs. A. Branscum was hostess for the "Month o' May" social for the Phebean Sunday School Class of First Baptist Church.

Mrs. Barbara Carter Perkins of Snyder, the Branscum's granddaughter, showed slides and shared her experiences of her three trips to Europe during her four years at Hardin-Simmons University.

She told of her trip to Spain and Germany in association with the "New Life Crusade" in October 1971 and again in June 1973. She also showed slides and told of the 10-week tour with the "Singers Ho" to Spain, Germany, Holland, France, Belgium, England, Switzerland and Austria in 1972.

Hostesses with Mrs. Branscum were Mmes. Lucy Mickler, W. H. Carter and C. R. Crowley.

Mrs. A. G. Miller, outreach leader, presided.

Mrs. George Wainscott gave the devotional from Luke on "Love and Happiness."

Others attending were Mmes. Cleo Perryman, Ben Parker, Lula Mae Crawford, Kelly Scott, J. A. George, Noble Greer, Erma Hall, Tom Gregory and O. G. Harvey.

Contest
Cancelled

Because of the very limited response to the Recipe Contest, sponsored by the Young Homemakers of Stamford, the contest was cancelled.

The widely publicized event was to have been held May 18.

"For Me to Live is Christ"

"And the Lord shall guide thee continually, and satisfy thy soul in draught, and make fat thy bones: and thou shalt be like a watered garden, and like a spring of water, whose waters fail not."

Isaiah 58:11.

"For me to live is Christ" is to be living for a purpose—to serve God by drawing out my soul to the poor, lonely, hungry, and lost. "For me to live is Christ" is to lead men everywhere to Jesus Christ who is the fountain of the water of life. And He has promised that when I am in His service He will guide me, and satisfy me, and I shall be like the flowers in this picture, like a watered garden, sustained by Him.

AUSTIN—There still seems to be some confusion regarding Personal Flotation Devices for recreational boats, according to Texas Parks and Wildlife Department water safety education officials.

are required to have a Type I, II or III PFD for each person on board plus at least one Type IV throwable device. Boats under 16 feet in length are required to have one Type I, II, III or IV for each person on board. Any boat, regardless of size, must have a PFD aboard for all water skiers, even if they are being towed.

Also, all children 12 years of age or under must wear a life preserver at all times on boats less than 26 feet in length.

A Type I device, better known as a life preserver, contains more than 20 pounds of buoyancy and is designed to turn an unconscious wearer face-up in the water.

A Type II device, or buoyant vest, contains at least 15.5 pounds of buoyancy and will also turn an unconscious wearer face-up in the water.

A Type III, or special purpose device, contains at least 15.5 pounds of buoyancy, and is designed to keep a conscious person face up in the water, but may not turn an unconscious person face up.

Type IV is a throwable device, such as a buoyant cushion or ring buoy.

NEWS FROM...

County Agent's Office

VEGETABLES

Numerous calls have come to the County agent's office this week regarding the use of vegetables which have been caught in the drift of 2-4-5-T or 2-4-5-T and Dicamba mixtures. These sprays solutions, says Kirby Clayton have been used by planes for mesquite control and in some cases the drift has contaminated home vegetable gardens.

Clayton says that no tolerance for human consumption of vegetables caught in the drift of 2-4-5-T or Dicamba, has been established by the Texas Extension Service and the only advice he can give to vegetable garden owners is not eat the vegetables. However, Clayton says that manufacture of the products may have a safe tolerance established and he urges concerned producers to either contact the company or call the EPA Regional office in Dallas at phone 214-749-7126.

SHADE TREES

Inadequate moisture is a problem for most shade trees owners in Jones County says Jones County Extension

agent Kirby Clayton. Most shade trees went through the winter months without any natural rainfall; many tree owners did not water adequately to maintain proper vigor and growth. As a consequence, trees did not leaf out properly, especially the pecan trees. Since the leaves are the manufacturing plant for the tree, it is very necessary that trees develop proper leaf foliage to produce fruit and maintain the vigor of the tree.

Watering, says Clayton, should be deep and trees in this area will need a good watering at least every two weeks to maintain vigor and growth.

Most all yard trees need to be fertilized once a year and pecan trees especially need 2-3 applications of zinc to prevent dieback and stimulate terminal growth. Zinc sulphate at the rate of two pounds per 100 gallons water may be added to the regular pecan spray solution for the pecan nut casebearer control.

In summarizing, Clayton suggest that proper fertilization, proper watering and a spray program to combat insects and diseases

a must if tree owners are to maintain healthy vigorous trees.

COYOTES

Jones County has been included in the counties which may use poison to control coyotes, says Jones County Agent Kirby Clayton. The agent says that farmers and ranchers in Jones County may now use potassium cyanide for coyote control on their farms provided they have gone through the one day training program.

Farmers and ranchers who are interested in taking this training to qualify for putting out potassium cyanide for coyote control should call the County Agent's office at 823-3801 in Anson and have their name and address. Those interested will be contacted later for the training meeting.

BLACKLEG

All cattle under two years of age should be vaccinated for blackleg every year, advises Kirby Clayton, county agent for the Texas Agricultural Extension Service.

Blackleg is a disease which is usually fatal to young cattle. The death or lameness of the best young calf in a herd often signals an outbreak of the disease. The most common sign that an animal has the disease is a swelling of the heavy muscles in the hip and shoulder.

According to Clayton, blackleg has been around for a long time and seems to show up wherever cattle are raised. It is caused by bacteria which are usually ingested with feed. The infection ends up in the heavy muscles of the animal, where it causes great damage and forms large quantities of gas in the tissues. When pressure is applied to the affected area, the gas in the tissues makes a crackling sound, like paper being crumpled.

An animal which has died from blackleg has a characteristic posture. Because of the terrific swelling soon after death, the animal has it legs extended and stiff like a sawhorse.

Once animals are stricken with the disease, they usually die in 12 to 48 hours. The disease can be prevented by vaccination with a bacterin made from the organism which causes the disease. Since animals under two years of age are the ones usually affected, they are the ones which should be vaccinated.

Although annual vaccination means that some animals be vaccinated more than once, this will not hurt the animals and will keep resistance at a high level, explains Clayton.

If there is an outbreak of blackleg on your farm, the best thing to do is to vaccinate all the young animals and hope you are getting ahead of the infection. You

may continue to lose animals for about two weeks. After that much time has passed since vaccination, the animals are generally safe. However, an annual vaccination program for all cattle under two years of age will eliminate chances of an outbreak, contends Clayton.

If Motorcycles
Were Bigger Than...

Well, bigger than **motorcycles**. Because when you're in your car, you aren't always used to looking for bikes and cycles. If motorcycles were bigger than your car, maybe you'd notice them.

The trouble is, there are a lot of people who depend upon motorcycles for transportation. Their safety . . . and yours . . . depends upon your being alert enough behind the wheel to notice them before it's too late.

By BERNICE D. WHITE

The Old Glory Seniors left Saturday on their senior trip. Their plans included a week at "Wilderness in the Pines" near Bastrop. There they were looking forward to such activities as golf, tennis, hayrides, horseback riding, fishing, swimming, and water skiing on Bastrop Lake.

They will conclude their trip with a two-day stay at Six Flags, and while at Arlington,

vironmental studies of the site of a proposed land development.

Purpose of the grant is to enable students of the college to conduct detailed surveys of the vegetation and animal population-considering numbers, quality and size-to determine exactly what changes occur as the area is developed.

Dr. Adams' mother, Mrs. Seth Adams Sr., resides here at 12 Northwest Third Street.

they plan to see a Texas Ranger baseball game.
